

# Krishnadev R

## Full Stack Web Developer

### PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer capable of crafting scalable and efficient web applications. Proficient in implementing seamless integrations with React.js for front-end and Node.js for back-end. Strong ability to leverage Generative AI and adapt to new tech swiftly.

### PROJECTS

#### 1. Dropify - traffic relief application | 🌐 | 📱 Typescript | React | Git | Node.js | Express.js | MongoDB | RESTful APIs | Next.js | Responsive Web Design | Socket.io

- Collaborated with a small team to develop a real-time platform that integrates on-demand deliveries and transport options using the MERN stack.
- Designed and implemented efficient server-side APIs with Node.js and Express.js for seamless integration of live traffic data and services.
- Built and maintained responsive frontend components using React.js and Next.js, ensuring a user-friendly interface for real-time updates.
- Optimized database models and queries using MongoDB to handle complex data for route optimization and traffic predictions.
- Implemented Socket.io for real-time communication, enabling users to report and receive live traffic updates, fostering community engagement.

#### 2. Game Tech | 🌐 | 📱 JavaScript | React | Git | Node.js | Responsive Web Design | HTML5 | CSS3 | RESTful APIs

- Collaborated with designers to create a cohesive and user-friendly interface for browsing and purchasing PC components.
- Implemented and maintained dynamic frontend components using React.js to improve user interaction and experience.
- Ensured seamless integration between frontend components to provide a cohesive and reliable shopping experience.
- Conducted extensive testing and debugging to ensure application stability and smooth shopping transactions.
- Applied responsive design principles to ensure optimal platform accessibility and usability across various devices.
